

THE CHINOOK ADVANCE

Vol. 22

Chinook, Alberta. Thursday, February 15th 1945

The Cooley Bros. Garage is being redecorated inside, and from its appearance it is a decided improvement.

The weather of the past few has been the coldest of the winter, yesterday the temperature was 20 below zero, with

a strong wind from the north which made it feel much colder, this morning it was 20 below, however the wind has dropped, and the sun makes the cold feel less intense.

The Local Curlers who are visiting Youngstown for the Bonspiel report good ice, and judging from the number of rinks entered which includes 3 from Chinook it should be a successful Bonspiel.

Bud Greenwood of Paradise Valley is spending a week with his mother, Mrs. Greenwood.

Word has been received that Happy Milligan and Ray Peterson have arrived over-

Mr. White, School Principal has been ill with an attack of flu. He taught for two days this week but was unable to teach the other three days.

The Primary room of the School has been closed this week owing to the teacher, Miss Sampson being laid up with an attack of mumps.

Mr. Hugh Cornell is quite ill with an attack of mumps.

NOTICE

The Annual Meeting of the Ratepayers of the Chinook Consolidated S. D. No. 10 will be held in the School on Saturday, February 17th at 1:30 p. m. for the purpose of discussing the affairs of the district and for electing the necessary trustees for the ensuing year.

Production Objectives

The Dominion Department of Agriculture is to be commended for the early release of a statement as to desired increases or decreases of various agricultural products. Objectives were published last December. Recommended or, in some cases, expected acreages or production for 1945 are expressed as percentages of 1944 acreages or production.

An increase in almost all agricultural production is desired. The following figures merit the attention of Prairie Province farmers:
Increases (% of 1944). Oats, 12; barley, 10; summerfallow, 3; cattle, 8; calves, 10; sheep and lambs, 5; creamery butter, 5; eggs, 6; rape seed, 75; sunflower seed, 45; sugar beets, 20; alfalfa seed, 93; crested wheat grass seed, 6.

Slight Change, or None. Hay and clover, hogs, dairy produce other than creamery butter, honey, wool.
Decreases (% of 1944). Wheat, 8; rye, 23; sweet clover seed, 38; brown crass seed, 25.

The position of seed flax is, as we write, in doubt. It is probably safe to assume that an increase in production would be welcomed, and that this will not be realized without a substantial increase in price.

The above programme is an ambitious one. Farm labour will certainly not be plentiful and, in consequence, there will be a temptation to increase wheat at the expense of other farm products. The government recommendations have been made after careful consideration of our own and our allies' needs.

A Land Of Opportunity

IN THE PAST, CANADA HAS PROVED to be, for many people, a land of opportunity. Our great railway systems were built, and our rich farming and mining districts opened up, by men who had confidence in the future of the country. The difficult times experienced during the drought and depression of the "thirties" caused some to doubt whether there were any longer many possibilities for advancement here, but the manner in which we have met the demands made by the war upon our energies and resources, has demonstrated that we should be able to deal equally well with peace-time needs. One of the greatest of these needs will be to provide opportunities for the many thousands of men and women who will be returning to civilian life, and for the generation now growing up in Canada.

May Have Hope
For The Future

There are many reasons why we may face the future with confidence and hope. We have been fortunate in escaping the devastation suffered by many nations through bombing and other forms of enemy attack, and Canada is one of the few countries that can revert to peacetime conditions with industries, resources and communications intact. Because of the needs of war, most of our industries and resources have been expanded, and intensive research and invention have led to many new developments. Canada has also expanded considerably as a world power during the war years. We now rank third among the United Nations in sea power, and fourth in the world in air power. In addition, Canada's geographic position has made her an important factor in assisting with the establishment of a closer relationship and better understanding between Great Britain and the United States.

Supplies Many
World Needs

There are still many possibilities in Canada for the opening up of new lands for mining and farming, of extending communications and of developing great supplies of hydro-electric power. It is also apparent that we hold an important position in relation to world airways of the future, and that this will lead to many new developments here. In a recent bulletin published by the Royal Bank of Canada, it is pointed out that although there are only a little over eleven million people here, making up but a small proportion of the total world population, we have, by industry and initiative achieved a leading place in the production of many of the world's needs. In addition, we have maintained a sound economic standing, both at home and in international financial markets. The bulletin observes that "it is not what we did yesterday but what we do tomorrow that makes for greatness." Much has been accomplished in the past, but Canada is still a land of opportunity for those who have confidence in her many potentialities.

HOW YOU CAN GET QUICK RELIEF
FROM SORE, PAINFUL PILES

Most people seem to think the only way to get relief from their sore, painful piles is by local treatment. Local treatment may give temporary relief from the itching, but you can easily see why such treatment will not cure the cause of your piles.

No lasting freedom from the misery from your piles can be had unless the cause of the trouble is corrected. Piles are due to internal causes so the best way to get lasting relief is to treat them internally with a medicine like Hem-Roid. Hem-Roid is a formula that has been used for over 40 years by thousands of pile sufferers. It is a small, highly concentrated tablet, easy and pleasant to use. This cleverly compounded tablet formula directs its medical action to the relief of the congestion that is the root cause of your piles. Hem-Roid promotes free, easy and comfortable bowel movements, relieves itching irritation and soreness and stimulates better blood circulation in the lower bowel. With good blood circulation in the

lower bowel the painful pile tumors soon heal over leaving the sensitive rectal membranes clean and healthy.

We invite you to try Hem-Roid and it will prove itself. You can make your test at home. NO COST. If you are not convinced that this is a safe, simple, and surprisingly easy and effective method of treating your sore, painful piles, get a package of Hem-Roid today from any drug store and use as directed for FIVE DAYS. At the end of that time, if you are not absolutely sure Hem-Roid is the nicest, cleanest and most effective treatment you ever tried, return the unused portion of the package to your drug store and he will refund your money.

This general offer is backed by a reliable firm doing business in Canada for a good many years. Hem-Roid must help your pile condition quickly, easily and pleasantly or the simple, easy test costs you nothing. Try it today.

Posed by a Professional Model
Hem-Roid promotes free, easy and comfortable bowel movements, relieves itching irritation and soreness and stimulates better blood circulation in the lower bowel. With good blood circulation in the

Price Control
And Rationing
Information

Q.—May we sell rationed commodities, such as honey or home-made preserves, donated by a consumer, at our church bazaar without collecting coupons?
A.—You must first apply to your local ration board for authority to sell rationed commodities at church sales and this application must be made before the bazaar.

Q.—If my tenants are more than 15 days behind with their rent, how much notice must I give them?
A.—Rentals regulations protect good tenants only. These tenants may be given notice to vacate under the law of the Province.

Q.—I am farming and need a supply of small arms ammunition. My certificate of essentially expired at the end of the year. How do I go about having it re-issued?
A.—Apply to the local ration board which approved the original certificate.

Q.—I am a farmer's wife and keep our own family supplied with butter. Is it necessary for me to turn in butter coupons to cover the butter consumed?
A.—Every butter producer, whether the butter is used for home consumption only or sold to butter customers, must turn in coupons to the local ration board to cover the butter consumed or sold as the case may be. These coupons are to be turned in every month.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your selling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Hitler's Pet Soldier

Marshal Rommel Was Great Gambler
Says Field Marshal Smuts

It is somewhat surprising to find Field Marshal Rommel, who at the age of 53 died of wounds, described in the "Times" as a brilliant tactician. Field Marshal Smuts's description of this typical German military thug as a great gambler rather than a great soldier will certainly be endorsed by the best critic of all, Field Marshal Sir Bernard Montgomery. The only military successes achieved by Rommel—the tank thrust that broke the French front at Mauthagen and cut off our 51st Division at St. Valery and the North African counter-attack that threw our Eighth Army right back to El Alamein—were won by overwhelming advantage of mechanical and artillery equipment. Rommel was badly worsted in every tactical manoeuvre where conditions were more or less equal, and finally deserted his African Corps as well as his Italian allies to get back to Berlin before the Tunisian debacle.

TRYING NEW CURE

A new drug which appears to cure African sleeping sickness, and actually has cured the early cases so far tried, was announced in Science, official Journal of American Scientists. African sleeping sickness has been so deadly incurable that large areas of that continent are not habitable.

Peter the Great of Russia could not read or write until he had been czar five years.

Put An End To It! With A Pudding Dessert

To end a good square meal, choose a four-square pudding with a fluffy meringue top! Here's a grand way to use the odds and ends in the bread box, and produce a delightful dessert. It's hot, spicy—and so spectacular for its economy too.

ALL-BRAN FOUR SQUARE PUDDING
6 slices day-old bread
1/2 cup raisins
1/2 cup All-Bran
2 egg yolks
4 tablespoons sugar
1/2 teaspoon margarine
1/2 cup milk
1 teaspoon vanilla extract
5 egg whites
Remove crusts from bread; spread with butter or margarine; cut into squares and arrange in layers in greased baking dish. Sprinkle each layer with raisins and All-Bran. Beat egg whites until stiff peaks form, adding flavoring; mix thoroughly and pour over bread. Bake in moderate oven (350 degrees F.) about 35 minutes. Cover with meringue made from two beaten egg whites and 4 tablespoons sugar. Bake in slow oven (300 degrees F.) about 20 minutes or until meringue is brown.
Yield: Eight servings (8-inch baking dish)

The Color Trend

Is Used As A Definite Aid To Medical Science

The trend toward the use of color as a definite aid to medical science in modern hospitals is exemplified in the internal color scheme of Canada's newest hospital ship, the Letitia—hailed as one of the largest and most modernly equipped hospital ships afloat.

There was a time—and not so long ago at that—when plain white paint was considered the only correct thing for hospital wards and corridors. In recent years, however, the trend has been away from white and much research has gone into the choosing of the colors that are to replace it.

That research finds its expression in the Letitia, just as it does in an increasing number of hospitals across Canada and to an even more marked extent in the United States.

So is that the Letitia sails the seas today with her cargo of wounded soldiers lying, not in the pitiless glare of all-white surroundings, but in the softness of soft green. They find the color more restful and more cheerful.

The seventeen wards of the Letitia are done in light green, and the corridors of the ship are finished in a darker green by way of contrast. The men who chose that color scheme knew there is more than the physical side to consider when making people well. They knew that the mental attitude of the patient plays a part in his recovery too.

Even the ceilings of the Letitia's wards have been divorced from the traditional white. Instead, they are finished in a less glaring and more agreeable buff paint.

The color scheme of many modern hospitals have gone further than that of the Letitia. While light and dark greens are the predominant note in the hospital ship, many shore establishments now have rooms—private and public—finished in warm earthy yellows, or coral and peach. Soft grays and greyed-down versions of other colors have been found soothing and suggestive of sleep.

As Dr. C. Harvey Agnew, secretary of the department of hospital services, Canadian Medical Association, has put it, color is an item of "major importance" in the psychological treatment of a patient. It is realized now that not only can correctly chosen colors promote serenity of mind, restfulness and cheerfulness, but certain colors can be utilized to produce specific emotions and reactions on the part of the patient.

The Letitia, of course, is designed to be a short-term resting place for the wounded men she hurries across the ocean to home. For that reason, her color scheme is one aimed at having the highest general utility, without going too deeply into the various color combinations and schemes designed for particular cases.

The Burmese regard tattooing as a fine art.

Chapped Skin

Mentholatum soothes, promotes healing, brings quick relief or money back. Also for chafing, cuts and bruises. Jar and tubes, 50c.

MENTHOLATUM
Gives COMFORT Daily

I Married an Angel!

YESSIR, the sweetest, cleverest, most reasonable little gal in the world. Knows what's what about good food, too!

So when she said "Postum's a grand-tasting drink—you'll like it, honey!"... I was willing to give it a try. Just for her sake, mind you!

I had to be convinced... and am I! Boy! What a flavor! Rich and hearty and satisfying—not like tea, not like coffee, just a grand drink.

Angel says that even children can safely drink it. Because Postum hasn't a trace of caffeine or any other drug to affect heart or nerves or digestion.

Even I can make Postum. You just add boiling water or hot milk right in the cup. And for all that, it costs less than 1¢ a serving.

A Product of General Foods

SMILE AWHILE

Hunter—Have you ever been lost in the woods?
Old Guide—Nope. I never did get lost, but I was bewildered once for four days.

Hobo—I'm hungry, lady.
Housewife—Here's a cent. But how did you fall so low?
Hobo—I had your fault, mum. I was too extravagant.

Woman (talking over telephone)—Send up a bale of hay.
Merchant—Who is it for?
Woman—The horse.

"I have a brother with a wooden leg."
"That's nothing. I've a sister who has a cedar chest."

Damself—You're a sailor. Have you ever been boarded by pirates?
Naval Officer—Yes, I spent last leave at a seaside hotel.

Mrs. P.—I went to the circus and I'm terribly glad of it.

Mrs. X.—Why?
Mrs. P.—Because ever since I saw the hippopotamus I've been better satisfied with my own shape.

Customer—My goodness, eggs are high!
Grocer—Sure, part of the war program.

Customer—How?
Grocer—All the hens are making shells.

Enthusiastic Golfer (in letter to sock manufacturer)—Fifteen minutes after putting on a pair of your socks, I made a hole in one.

"Your husband seems to be a man of rare gifts."
"I'll say he is—he hasn't given me one since we were married."

"The clothes my tailor makes last for years. Look at that blue serge suit of mine. There's an example."

"Yes, a shining example."

Appealing Advertising—Use Lumo soap. Doesn't lather. Doesn't bubble. Doesn't clean. It's just company in the tub.

A local couple once had a quarrel and got into police court. A neighbor was a witness.

Judge—Were you present at the beginning of the trouble?
Witness—Certainly, I was a witness at their wedding.

SOCKS WILL NOT SHRINK

The Quartermaster Corps has developed a simple shrink preventive treatment for woolen socks that will, it is thought, be applicable to all woolen fabrics, officials of the Kansas City Quartermaster Depot announced recently. The treatment has been used, up to date, only for socks, but preliminary tests indicate that it also will be practical in making other wool or part-wool fabrics non-shrinkable.

Approximately three tons of steel are used in making one heavy bomber.

New War Weapons

United States Establishes Test Station In California

On a 656,000-acre tract of government land in the Mojave desert's lava mountains, the U.S. Navy has established a \$35,000,000 ordnance test station for new and terrible weapons of war, among them rockets which may be used against Japan. It will be 18 months before the station is completed.

The programme for rockets includes an expenditure of \$100,000,000 a month for ammunition alone.

Itching Scalp—
Loose Dandruff

Try This Home Treatment For Quick Ease and Comfort

Here is a clean powerful penetrating oil that brings speedy relief from the itching, sore, itchy scalp. Just use equal parts of Monro's Emerald Oil and olive oil. You may go to bed this once a day and shampoo every fourth day. You'll find this treatment not only soothes the itching and restores but helps promote more abundant hair growth. Itching dandruff becomes a thing of the past. You can easily find Emerald Oil in the original bottle at any good drugstore.

WORK UPON IT

Hundreds of incendiaries and 42 high explosive bombs fell in Cannel Laird's shipyards at Birkenhead, Eng., in the winter of 1940-41 but work went on just the same in berths which have turned out such ships as the Ark Royal, Prince of Wales and submarine Seahawk.

DO THIS
If Your Child
Has a Cold

Don't take needless chances with untended remedies. Relieve misery this homoproposed, double-action way.

WORKS 2 WAYS AT ONCE
PENETRATES to upper breathing passages with medicinal vapors.
STIMULATES chest muscles—forces like a warming poultice.
KEEPS WORKING FOR HOURS

Now to get all the benefits of this excellent PENETRATING STIMULATING action as shown above, just rub throat, chest and back with Vicks VapoRub at bedtime. Then... see how this family standby goes to work instantly—2 ways at once—to relieve coughing, spasms, ease muscular soreness or tightness—bring grand relief from distress! Its soothing medication soothes restful, comforting sleep—and by morning most of the misery of the cold is gone. Try it tonight.

ITCH CHECKED
In Half
—or Money Back

For quick relief from itching caused by eczema, hives, heat, sunburn, insect bites, conditions, use pure, cooling, medicated, liquid VICKS VAPORUB. Prescription. Creams, ointments, lotions, and powders. Stitches, combs and quickly cure today for D. D. D. PRESCRIPTION.

Not The Time

Victim Of Bombing Did Not Consider Bombing As Emergency

Immune stories are told round stoves of Civil Defence Headquarters in London suburbs, of amazing fortitude by victims of the enemy bombs. Perhaps one of the best, and a perfectly authentic one, is of the elderly woman in Balkan, who was finally rescued from the ruins of her small home by a hefty gang of tough but sympathetic navvies. Seeing the old lady was in rather a bad way, one of the latter, noticed a bottle of whiskey that had luckily escaped the domestic debacle, suggested that she should have a good nip. Whereon the victim protested feebly but volubly: "Ere, leave that bottle alone—it's for an emergency!"

In Honduras mahogany trees take about 200 years to reach their size—100 feet tall and 40 feet in circumference.

Eye Shields

Arabs In Middle East Use These As A Protective Measure

Thousands of Arabs in the Middle East desert are wearing cellulose acetate transparent eye-shields originally supplied to British troops of the 8th, 9th and 10th Armies. Hundreds of millions of these shields have been produced in Britain, originally to protect the eyes of soldiers and A.R.P. workers against poison gas. In the Middle East they have proved invaluable as a protection for the eyes against sand, dust, flies and the glare of the sun, both for soldiers and civilians. The shields are particularly valuable in saving Arab children from the eye infections common in the desert.

B. X. Plastics, Limited, the British firm most prominently associated with their development and manufacture, considers that an important post-war market has been created in the Middle East and also the Far East for this British wartime commodity.

FIRE RESISTANT PAINT

Two fire-resistant paints for ship use have come out of the war so far. One of them, for use mainly on steel, will discolor but will not burn when brought into contact with flame. The second goes a step further and actually acts as a fire extinguisher, by giving off a fire-smothering vapor when exposed to flames. It is used largely for the protection of the woodwork of a ship.

OUR COMPLETE SHORT STORY—

Someone Else

— By —
MARY C. MACKAY

McClure Newspaper Syndicate

Freddy had always thought he had this love business figured out. It just meant having a girl like Kay, with whom you always felt comfortable who understood talk about engine or new suits, who would help fix the windshield wiper when it stuck.

Now he wasn't so sure. If that was love, what was this he had? He wiped his forehead. When, one sure thing—it wasn't the measles.

Jeanie didn't know a nut from a bolt, but when he was with her he could hardly differentiate between them himself. All he could see was a pair of sea-green eyes and a freckled nose.

That was another funny thing. He remembered when, during his last leave, he had said to Kay: "You know, Kay, I wouldn't mind you going out with fellows now and again while I'm away. But Jimmy Randolph—why, he's so far beneath you! Besides, he's a funny looking guy, and you're—you're beautiful," he had stammered, looking at Kay's lovely complexion, her soft golden curls. It was the first time he had ever told her she was beautiful.

She had looked at him queerly with her dark eyes. "Freddy, dear, I think you're making a mistake. You don't love Kay, but you love me or what they look like. I love you because you're you." Then with a twinkle in her eyes she added, "I don't even love you any better now since you've grown so handsome, than I did when you were nine years old and hadn't any front teeth."

"Aw, quit kidding, Kay!" Freddy had said, red in the face. "You know what I mean. Let's forget Jimmy Randolph anyway, and talk about us." He reached in his pocket and drew out a small square box.

Opening it slowly, he whispered, "Kay, I'd like to think of you wearing this while I'm — away. I'll be sort of an understanding. Will you wear it, Kay?"

Kay's eyes had misted. "Freddy, are you sure? Perhaps you've met someone else."

Drive out ACHES

"No, there will be no one else." How sure he had been!

Kay had kissed him. "Promise me one thing, Freddy. Remember you asked me last leave for a picture of myself to put in your folder? Well, I'll put one in for you. But I want you to promise me faithfully, Freddy, that you won't take it out, until — you've met someone else. And when you do, just take out the picture and put hers in. You can send mine back to me and I'll know I'm to send the ring back to you."

He had smiled. "I promise." It had seemed ridiculous then that he should ever want to take the picture out. He picked up the little case now and looked into Kay's dark eyes. She smiled out at him. He set the folder up against his lamp, and ran his finger through his hair. Kay belonged right there—and yet he had promised—What was he to do?

He had met someone else—someone he wanted so badly he couldn't sleep or eat. Someone with small freckled nose and a little twisted smile. He groaned as he glanced at Kay's face again. If she were only here, he would talk it over with her, she'd understand and help him. But she always helped him out of difficulties. To take her picture out and send it back seemed so cruel. No, he couldn't do that, but Kay's honest eyes seemed to say, "Remember the promise."

Jeanie's part little face wouldn't look right in the folder anyway. It belonged right where it was, in the beautiful little frame on his table. He couldn't understand it. He knew he loved Kay the same as he had always loved her, because, well—just because she was Kay. It was a warm, comfortable love. This was so different. This was a burning ache for someone, and when he saw that someone the world became a place of magic. The merest phrase was as beautiful as that of a poet. The world was full of love and laughter, with only two inhabitants, his and Jeanie's.

He picked up the folder and the frame. Jeanie's picture could be fitted in easily enough, but it wouldn't look right. He knew it wouldn't, but just to prove it to Kay he'd try it. Grinny he heaved the back part and lifting Kay's picture he found a small folded piece of paper.

Opening it, he read in Kay's dainty writing: "Dear Freddy—I knew you were making a mistake, because I love you exactly the way you love me. And that isn't the way I love you. Jimmy Randolph. I wanted to tell you this when you gave me the ring, but I couldn't—because I knew I'd hurt you. So, besides, you were going away. I always want to be free to love you as a pal, but I know now that Jimmy is the one I want to marry. I'll be true to you until you read this—because then you will have found someone else. So—now that you've found her, I hope she is worthy of the best pal a girl ever had."

"Lots of love, and luck—"
"KAY"

A great peace stole over Freddy and the world slowly settled down around him again. He replaced Kay's picture in the folder slowly. Then he picked up Jeanie's. He kissed it reverently—and said with his heart almost choking him: "I knew Kay would fix it up for us."

IN OTHER WORDS

Leonard Lyons, in the New York Post, says Kenneth Galbraith, the former deputy O.P.A. Administrator, and now an editor of Fortune, is one of the tallest men ever held a government post. He's 6 feet 8. To the frequent inquiry, "Just how tall are you?" Galbraith replies, "I'm not as tall as you think. I'm only 5 feet 20."

INCREASES RICE ACREAGE

As a result of the "Grow More Food" campaign in India, the acreage under rice has increased by nearly 6½ million during the war — from 73.8 million acres in 1939, to 80 million acres now.

Cost Will Be Heavy

But Allies Firm In Their Demand For Unconditional Surrender

The majority of people will, he believes, endorse Prime Minister Churchill's reiteration in Parliament that "the war will be prolonged until unconditional surrender has been obtained." The phrase, "unconditional surrender," has been criticized in the past on the ground that it only acted as a spur to the Germans to resist to the bitter end. Perhaps so, but the Nazis have proven themselves the object of ferocious, unrelenting people who would fight to the end any way, and we do not believe that they would agree to any terms of peace that did not let them get away with some of their ill-gotten gains, and leave them in a position to prepare for World War No. 3. So it simply must be unconditional surrender in order that terms can be imposed upon them which will thwart either of these two hopes.

Everybody admits today that the Allies made a tragic mistake when they refrained from going on to Berlin in 1918 and occupying Germany and supervising her heavy industries instead of stopping at the Saar for a limited time. The cost of going will be heavy in lives, suffering and money, but it must be done if the next and succeeding generations are not to suffer worse than the present one.—St. Thomas Times-Journal.

Camera Identification

North Battleford Constable Makes An Important Discovery

Constable R. Anthony of the North Battleford police force has the approval of the Royal Canadian Mounted Police and the United States Federal Bureau of Investigation for his method of identifying a camera through the marks it leaves on a negative.

He was investigating the theft of a camera two years ago and located a camera answering the description—but found scores of others also in the city were exactly the same in appearance. He asked the owner to bring negatives made with the stolen camera and he found that variations in the negatives from the camera he had located were identical.

Constable Anthony then built up an improvised laboratory at home and filed scores of negatives used in other cameras loaned him by friends. From these negatives he compiled a brief on his method of camera identification.

Goes Long Distance

Arctic Tern Probably Travels Farther Than Any Other Bird

The champion traveler of the bird world is probably the Arctic tern, a small, white, gull-like bird. Metal bands have been attached to the legs of nestlings in Labrador and the grown birds recaptured a few months later at the mouth of the Niger River in West Africa and in Natal on the Indian Ocean coast of South Africa—nearly 9,000 miles from Labrador. And the Arctic tern is found in the Antarctic during our winter. It is well known as a seasonal migrant up and down the western seaboard of both Europe and Africa. From this it has been inferred that this species migrates from Arctic America across the North Atlantic to Europe, then down the coast past Africa to the Antarctic Ocean, and back up the same route the following spring—a distance, in all, of about 24,000 miles, or almost equivalent to the total circumference of the earth.

A LOT OF MONEY

Britain's war savings campaign, launched five years ago, has raised just under £8,500,000,000 (about \$38,250,000,000).

Deserves Better Name

Lancaster Bomber "M2" Has Had Unimpressive Career

Sailors have a habit of speaking of some veteran liner as "The Grand Old Lady of the Atlantic," as in the case of the first Mauretania. Rail-roads speak affectionately of some old locomotive which has had decades of service, calling it by some such name as "Old Grumpy." The Royal Air Force has a Lancaster known as "M2" that surely deserves a more picturesque name.

"M2" has made 87 bombing trips to Germany, five to Italy and 37 to other targets on the continent, a total of 139 bombing trips. During that time she consumed 139,800 gallons of gasoline, and flew 969 operational hours.

This veteran of aerial operations must have been shot at and hit many times. She must have been in many hot spots, but she laid her "eggs" and brought her crews back safely every time. It is extraordinary to think that if the same crew had been in every one of her 139 trips they would still all be alive.

She is what seamen would call "a happy ship."—St. Thomas Times-Journal.

Should Be Careful

Very Few Adults Are Physically Able To Shovel Snow

The question of who should shovel snow from the sidewalk is not one of sex or civility, but of heart and muscles. Dr. Francis E. Fronczak, Buffalo City Health Commissioner, said:

"Actually few adults are physically fit for the arduous task of removing snow," he asserted. Emphasizing the number of persons overcome while shoveling snow during the recent blizzard, Dr. Fronczak said: "If the wife puts in a goodly share of her time scrubbing floors, washing walls and wrestling the wash, she may be in better condition to move snowbanks than her husband who sits in an office all day."

Elderly persons and those physically soft should shun snow shovels because "snow shoveling can cause death by acute dilation of the heart."

This Week's Pattern

By ANNE ADAMS

Buttons in easy sewing, easy ironing, easy wearing qualities. Pattern 4785. Youthful square neck, soft bow.

Pattern 4785 comes in sizes 12, 14, 16, 18, 20; 30, 32, 34, 36; 38, 40, 42 and 44. Size 16 takes 3½ yards 35-inch; ½ yard contrast.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

Made Good Stove

One W.A.A.F. Cook, Hot Stoves Around A Blow Torch

W.A.A.F. cooks at forward fighter stations overseas, which were so heavily attacked were bombed time and again out of their cook-houses. One girl who was attached to a nearest dugout section of the R.A.F., cooked for the unit on a blow-lamp, having ingeniously contrived a stove of bricks built around the flame. Every now and then with minutes, she had to cease stirring her buckets and drive for her life into the nearest dugout when "Jerry" swooped overhead, machine-gunning and bombing the site, pieces of shrapnel raining into the food she was preparing.

John Ruskin went to the British Museum and looked at the pergamene exhibit whenever he felt downhearted; this exhibit always made him laugh.

TRANSFER—

Pte. Gertrude Irene Collins, daughter of Mr. and Mrs. George Collins, Marchwell, Sask., has been transferred from No. 3 C.W.A.C. (B) T.C. Kitchener, Ont., where she recently completed her basic training to Edmonton, Alta., where she will take a special course at the army's No. 13 Vocational Training School. Pte. Collins was born at Russell, Man., and joined the Canadian Women's Army Corps in Winnipeg, last November.

ENGLAND (DELAID)—

Two French-speaking Collins, daughter of Pte. D. M. Collins, W.D. R.C.A.F., of Maple Creek, Sask., had the privilege of chatting for a few minutes with the American diplomat, John G. Winant, United States Ambassador, when they were in Ottawa, Ont. They were Sgt. Charlotte LaRue, Quebec City, and Pte. Yvette Chevalier, Verdun, both of whom have been overseas for two years.

PROMOTIONS—

Pte. Barbara C. MacKenzie, Yorkton, has recently been promoted to the rank of corporal in the Canadian Women's Army Corps in Military District No. 12, Saskatchewan. Pte. MacKenzie who was born at Wroxton, Sask., joined the C.W.A.C. in May, 1943.

Le-Cpl. Helen Thom, Kenville, Man., has been promoted to the rank of corporal in the Canadian Women's Army Corps. Cpl. Thom is employed at clerical work in the Directorate of Ordnance Services General Stores, Ottawa.

ENLISTMENTS—

A large number of girls mainly from rural Saskatchewan enlisted in the Canadian Women's Army Corps in Regina recently. Included among them were: Lorna J. Irvine, Macdowell; Anne M. Slesky, Smuts; Helen Houbrecht, Hodgeville; Doreen Cairns, Admiral; Gladys Payne, Glenworth; Joyce James, La Fleche; Edna Thurston, Vonda; Minnie Porter, Federal; Evelyn Poole, Cheviot; Josephine Hart, Landis.

SELECTED RECIPES

POTATO CREAM SOUP

1 qt. peeled sliced white potatoes
½ cup minced celery tops
1 tablespoon minced parsley
1 unpeeled onion, sliced
2 cups boiling water
1 qt. hot milk
1 teaspoon salt
1 teaspoon pepper
1 tablespoon flour
1 tablespoon butter

Combine the potatoes, celery, parsley and onion in a medium-sized kettle and add the boiling water. Cook covered until the potatoes are tender (about 15 minutes), then rub through a sieve, saving the potato water. Add the milk; bring to scalding point and add the salt and pepper. Blend the flour and butter. When creamy, add a little of the hot soup to mix it well; then stir this into the scalding soup and cook and stir until boiling point is reached. Garnish with fried onions, and serve with crisp crackers.

RUSSIAN CABBAGE SOUP

2 tablespoons butter, margarine or suet
2 large onions, peeled and chopped
1 pint chopped cabbage
3 tablespoons flour
1½ tablespoon minced parsley
3 pints vegetable or meat stock
Salt and pepper to taste
¼ cup tarragon or weak cider vinegar

Heat the butter or suet; add onions and cabbage. Fry gently until light brown, add the flour and parsley. Add stock and simmer one hour. Season with salt and pepper. Small sausage balls may then be added; combine ¼ pound sausage meat, 1 egg yolk, ½ cup cracker crumbs, 1 teaspoon scraped onion juice. Fold into balls, roll in flour and cook fifteen minutes in boiling soup. Serve with crisp crackers.

Grasshoppers are ground and used for flour by the Arabs.

Improve Your Health by Correcting Sluggish KIDNEYS

This Way is Swift, Economical
Few conditions can wreck your health faster than disordered kidneys and bladder. Your kidneys are the filters of your body. When these things happen your kidneys need help in filtering out acids and poisonous wastes that are undermining your health. Give them this help—quickly—with GOLD MEDAL Haarem Oil Capsules. GOLD MEDAL Capsules contain accurately measured amounts of the original and genuine Haarem Oil (Dutch Dropp). You will be gratefully surprised at the way they relieve clogged kidneys and irritated bladder. Go to your druggist now and get a 40c box. Be sure you ask for GOLD MEDAL Haarem Oil Capsules.

Situation Changed

British Columbia Now Importing Instead Of Exporting Coal

British Columbia is importing more than one-third of the coal it consumes whereas 35 or 40 years ago it was exporting coal. It was revealed by Hon. E. C. Carson, provincial minister of mines, that B.C. mines produced 1,843,326 tons of coal in 1944 compared with 1943 output of 1,821,654 tons.

James Dickenson, chief inspector of mines, estimated imports from Alberta in 1944 totalled more than 1,000,000 tons, compared with 1943 imports totalling 960,000 tons.

NOW I'll go to Sleep My COLD is better

This faster penetrating Rub really does bring quick relief to either kiddies or grown-ups. Rubbed briskly over chest, throat and shoulder blades, it helps create a glowing warmth, breaks up congestion, eases breathing—BUCKLEY'S WHITE RUB must give relief in less time or money back. Price 30c and 50c. Sold everywhere.

Write clearly or print in block letters, giving complete details. Write your own name and address on upper left hand corner.

Don't take a chance on poor "handwriting". You may save a minute—at the cost of many weeks' delay.

THIS is a war of rapid movement. Overseas mail must be handled many times before it reaches your man. If you write a wrong or incomplete address, it may cause weeks of delay in spite of all your Post Office or Canadian Postal Corps can do to speed delivery. You can save much heart-ache by following these simple rules:

1. Write clearly or print full address in block letters.
2. Make sure the address is COMPLETE, many delays are caused in Army mail by senders omitting name and number of unit.
3. If you are writing to a wounded man in hospital Overseas, write the usual COMPLETE address, then ADD the words "IN HOSPITAL" in large letters on the envelope.

YOUR PARCEL MUST FACE THE RIGORS OF WAR...

Your parcel must stand the weight of thousands more pressing down on it in the hold of a lurching ship at sea. It must stand rough transport, often under fire, over shell-torn roads. Pack your parcels in corrugated containers, wrap in several layers of heavy paper and tie with strong twine.

DON'TS for SENDERS: Don't pack matches or lighter fluids. Don't send foods that can spoil. Don't send liquids in cartons or glass. Don't forget to affix completed customs declaration. Don't use "shoe boxes", they crush easily.
